SO, WHENEVER ARJUNA'S SUMMONED, HE'D IMMEDIATELY USE HIS ARROWS

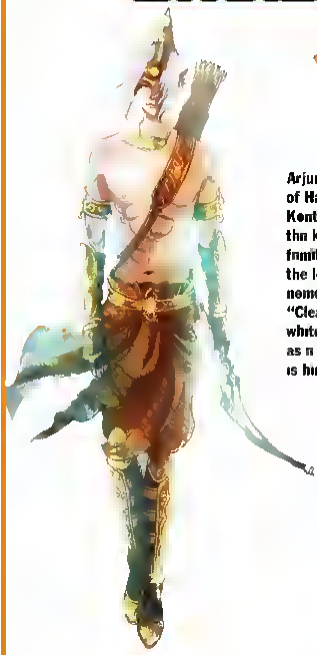
DROIDPEDIA



ARJUNA

Arjuna is the son of Prabo Pandudewata, the king of Hastinapore who got married with Dewi Kunti/Dewi Prita, the daughter of Prabo Basohonti, the king of Madura. Arjuna is the 3rd child in his family, and he has 4 siblings in total. According to the legends, Arjuna is an experienced archer. His name literally means "Shine brightly", "White", "Clear". Which is why Arjuna is drawn with a clean white hair and a really light blue eyes. He is known as a member of Pandawa who looks handsome and is kindhearted, which is why he is drawn that way.

Arjuna is a character from the story of Mahabrata. The story of Mahabrata itself is originated in India, but due to the people travelling, the story is spreaded throughout Indonesia. In Indonesia, the Mahabrata's story is usually shown in a "Wayang Show/Performance".

*"Wayang Show" is some kind of Puppet show

Arjuna Sasrabahu

As said above, Arjuna's character design is pretty much based on the legends. Though in truth, according to the stories, Arjuna actually doesn't like to use expensive things, gold stuff, diamonds and being half-naked. But, to make his personality looks *stronger* we drew him wearing gold things and the likes. The "Batik" that Arjuna wears is called Pulang Rusah, and it's from Yogyakarta.

*"Batik": The author is referring to his bottom/trouser-like clothes. It's basically a type of design originated in Indonesia. Further info check the wiki. https://en.wikipedia.org/wiki/Batik
